

# Snakes and Ladders Board Game!

**Rules:** roll the dice and move as many boxes as the number shown on the dice.

You do **NOT** need to land a 6 to start.

The number in every box equals a question on the following link to which you have to give a full answer.

<https://www.conversationstarters.com/100.htm>

Different version: you can set a time limit to every response and if the person cannot finish or fill the time, they have to go back to their previous box.

You can run a grammar or vocabulary police check point and if anyone makes substantial grammatical or vocabulary mistake, they have to retreat to their previous box.

Enjoy it ;)
